

COORDINATED FINANCIAL PLANNING CORP. Form CRS - 6/25/2020

Item 1: INTRODUCTION

Coordinated Financial Planning Corp. is registered with the Securities and Exchange Commission (SEC) as an Investment Adviser.

Brokerage and investment advisory services and fees differ and it is important for you to understand the differences. The SEC offers free and simple tools to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/crs) which also provides information tailored to educate retail investors about financial professionals.

Item 2: RELATIONSHIPS AND SERVICES

What investment services and advice can you provide me?

Our firm offers the following principal investment advisory services to retail investors.

Our firm provides investment discretion for the following services. If you invest on a discretionary basis, our firm will buy and sell investments in your accounts without requiring your pre-approval on an ongoing basis until you notify us in writing to switch. All of the following are monitored quarterly as part of our standard service. A client gives us discretionary authority when you sign an advisory agreement with our firm. This agreement will remain in place until you or our firm terminate the relationship. Our investment advice is not limited to a particular type of security.

- Portfolio management
- Investment recommendations

Our firm offers non-discretionary services which means that YOU make the ultimate decision regarding the implementation of financial planning and/or client directed investment strategies.

A minimum of \$200,000 of assets under management is typically required for service.

For additional information including minimum investment amounts, please see

<https://www.adviserinfo.sec.gov/firm/brochure/105143> Form ADV, 2A brochure (Items 4 and 7 of Part 2A or Items 4.A. and 5 of Part 2A Appendix 1).

Conversation starters to ask your financial professional:

– Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

Item 3: FEES, COSTS, CONFLICTS AND STANDARD OF CONDUCT

What fees will I pay?

Our asset-based fees will be assessed quarterly and are disclosed in our Form ADV Part 1A, Item 5.E. and more fully described in our Form ADV Part 2A, Items 5.A., B., C., and D. Some fees create a conflict of interest described below and in more detail in our Firm's Part 2A.

- It is important to understand that the more assets held in a retail client's account, the more the client will pay in fees. We therefore have an incentive to encourage a client to increase the assets in his/her account.

In addition to the principal fees and costs listed above, there are other fees and costs related to our investment advisory services that you will pay directly or indirectly. For example, mutual funds and variable annuities also charge management fees, which are separate from the fees assessed by us. While some broker-dealers no longer

charge custodial and brokerage fees (including commissions), any such fees or charges are separate from our advisory fee.

Additional Information:

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For more detailed information about our fees and costs please review our Form ADV, Part 2A brochure (specifically Items 5.A., B., C., and D.) which can be found at <https://www.adviserinfo.sec.gov/firm/brochure/105143>.

Conversation starters to ask your financial professional:

– Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are examples to help you understand what this means.

- Our firm charges you asset based fees, more assets in the account will cause you to pay more in fees and therefore we may have an incentive to encourage you to increase the amount of money invested in those accounts.

Conversation starters to ask your financial professional:

– How might your conflicts of interest affect me, and how will you address them?

Additional information:

For more detailed information about our fees and costs please review our Form ADV, Part 2A brochure (specifically Items 5.A., B., C., and D.) which can be found at <https://www.adviserinfo.sec.gov/firm/brochure/105143>.

How do your financial professionals make money?

- We pay our professionals a base salary and bonus and, therefore, they have the opportunity to earn more when increasing assets under management.
